DELAY IN BUILDING THE DEFENCE RAM. General Thomas W. Hyde, president of the Eath from Works, Eath, Me., which has built several of the w steel war-vessels, said yesterday that the harborthe plans of which were drawn under supervision of Chief Constructor Theodore D. Wilson, would probably rendy to launch about the middle of August, and she no doubt would have been had not the strikes at the the armor-plate. The delays which have occurred in the construction of this vessel were all due to the lack of promptness in delivering the materials, caused by labor troubles. The contract for her was awarded dructor J. B. Hooner, who has superintended her con for the contractor's trial and "final delivery to the Government in about ten months." But the delay is not the fault of the builders. The total amount of rmor-plate required for the vessel is 70s tons for the armor pane required in the said said was and deck, of six, three and two and one half inches thickness; and sixty-four and one half tons of eighteen and six inch plates for the conning tower, and smokepipe and ventilators.
